

# VISION BENEFITS

If Offered By Your Agency

## Your Vision Insurance Options

During annual enrollment, vision insurance coverage is available to eligible employees and dependents, **if offered by your agency**. Enrolled employees may also make changes or drop coverage for self and/or family members. Check with your Agency Benefits Coordinator to find out if this coverage is available to you.

**You will keep your current coverage if you don't change your current plan option or cancel coverage using ESS in Edison.**

### Choose between two vision options

- > **Basic Plan** offers discounted rates and allowances for services.
- > **Expanded Plan** provides services with a combination of copays, allowances and discounted rates.

### Both plans offer the same services, including:

- > Annual routine eye exam
- > Frames
- > Eyeglass lenses
- > Contact lenses
- > Discount on Lasik/refractive surgery

The basic and expanded plans are both administered by **EyeMed Vision Care**. In-network and out-of-network benefits are available. See the ParTNeRS for Health website for a list of limitations and exclusions. You will receive the maximum benefit when visiting a provider in EyeMed's **Select** network.

In 2015, premiums will be approximately 2.4 percent higher.

### Monthly Premiums for Active Members
